FINANCIAL TRANSACTION MONITORING REPORT

Synthetic training document for testing the FinIntelligence Fraud Report Analyzer

1. Report Information

Field	Details
Report Reference	FTR-2026-1102-014
Reporting Unit	Example Community Bank — Monitoring Operations
Report Date	02 November 2026
Review Period	28 October 2026 to 02 November 2026
Customer Reference	CUST-TRAIN-1048 (synthetic)
Account Reference	ACCT-TRAIN-77821 (synthetic)
Currency	INR
Purpose	Illustrative review of unusual transaction activity

2. Customer Background

The customer profile in this training example indicates an individual account opened approximately 18 months before the review period. The stated occupation is salaried employee. The profile records an expected monthly account inflow of approximately INR 65,000 to INR 90,000. Normal activity is described as salary credits, household payments and occasional domestic transfers. No verified source-of-funds documents are included in this sample report.

3. Transaction Activity Under Review

The following transactions were selected for review because their amounts, timing or sequence may warrant additional context. An unusual transaction does not, by itself, establish wrongdoing.

Transaction ID	Date & Time	Type	Amount (INR)	Channel	Status
TXN-10481	28-Oct-2026 09:14	Salary credit	78,500	NEFT	Successful
TXN-10482	29-Oct-2026 11:06	Domestic transfer	4,90,000	IMPS	Successful
TXN-10483	29-Oct-2026 11:22	Domestic transfer	4,75,000	IMPS	Successful
TXN-10484	29-Oct-2026 16:40	Cash withdrawal	2,00,000	Branch	Successful
TXN-10485	30-Oct-2026 10:03	Domestic transfer	4,85,000	NEFT	Successful
TXN-10486	30-Oct-2026 10:19	Domestic transfer	4,80,000	IMPS	Successful
TXN-10487	31-Oct-2026 14:51	International transfer	3,95,000	Wire	Pending review
TXN-10488	01-Nov-2026 08:35	Cash deposit	3,70,000	Branch	Successful
TXN-10489	01-Nov-2026 08:52	Domestic transfer	3,65,000	IMPS	Successful
TXN-10490	02-Nov-2026 12:10	Utility payment	3,250	Online	Successful

4. Initial Observations Recorded by the Monitoring Team

• The account expected monthly inflow is materially lower than several individual transfers listed during the review period.

• Multiple high-value transfers occurred close together, including two transfers within a 16-minute interval on 29 October.

• A large cash withdrawal followed the high-value transfers on the same day.

• A high-value international transfer was initiated and is marked pending review.

• A substantial cash deposit was followed shortly by another domestic transfer on 01 November.

• The report does not include beneficiary ownership details, invoices, contracts, source-of-funds evidence or the customer explanation.

5. Information Required for Further Review

• Customer explanation and supporting documents for the high-value transfers.

• Beneficiary names, account ownership details and relationship to the customer.

• Purpose and supporting documentation for the cash deposit and cash withdrawal.

• Source-of-funds and source-of-wealth information, where appropriate.

• Relevant historical transaction pattern and customer risk profile.

• Confirmation of the international transfer beneficiary, destination and purpose.

6. Important Notes and Limitations

This document is entirely synthetic and was created for software testing and classroom demonstration. All customer references, account references, transaction identifiers and transaction details are fictional. The observations are illustrative prompts for analysis, not conclusions. This document does not allege that any real person or institution has committed fraud or money laundering.

Required interpretation: An AI tool should identify possible indicators, explain the evidence and state what remains unknown. It must not treat unusual activity as proof of fraud. Any real-world decision requires verification against original records and review by authorized compliance personnel.
